

# Part X Studio

Sasoon Makarian

TEXTILE DESIGN

## MATERIALS

Each piece is crafted from vintage and recycled materials.

Military canvases, vintage postal bags, and sustainable fabrics are stitched together to bring new forms and shapes to forgotten materials.

Built for movement, designed from what survived.

Made from reclaimed  
military canvas and  
vintage postal fabrics.  
Each piece is  
hand-cut,  
re-stitched,  
and re-imagined.

Us military light weight canvas for a Laundry Sling-style.  
Original. Over dyed and stone washed.

Us military light weight canvas for a Laundry Sling-style.  
Original. Stone washed.

## C BAGS

Made from reclaimed postal and military canvas, each C-Bag reflects the distinct wear, fading and markings collected through decades of use.

Every piece is washed, softened and reworked by hand; original seams, repaired areas and field stamps are intentionally preserved.

The variations in texture, tone and construction arise from the different sources of vintage canvas — U.S. Postal bags, military lightweight fabrics, over-dyed stocks — making each bag materially unique even when the silhouettes repeat.

Built from what has lived.  
Made to live again.

Reworked materials carry  
marks of previous use.  
We clean, mend, dye, and  
reconstruct them  
into durable everyday pieces.  
This process keeps the fabric  
alive.

Part X Studio — Crafted from lived fabrics.

Hand-crafted in small batches.  
Reclaimed materials. Each item unique.
